SYDNEY FILM FESTIVAL

OVERVIEW

Over 70 years, Sydney Film Festival (SFF) has earned its reputation as a revered, cultural institution that finds and spotlights critical stories from Australia and around the world.

SFF takes risks, curating films that platform under-represented voices and tackle provocative and important topics. The audience relies on the Festival to deliver films that open eyes to new ideas and diverse perspectives. It pushes back against a trend towards mono-cultural onscreen representation and continues to build support for the Australian film industry.

Over 12 days each June, Sydney Film Festival showcases the best films from across Australia and the world, opening a dialogue between filmmakers and audiences with a program of talks and Q&As.

SFF is one of the largest and longest running Film Festivals in Australia, an iconic Sydney cultural event and an important player within the international film festival circuit.

The Festival is attended by large, high value audiences including local and international celebrities; film and entertainment industry; federal, state and local government; business leaders and the media.

Every year, SFF offers:

- 12 days of cinema, culture and glamour
- 100,000+ attendees
- 200+ films across 350+ sessions from over 60 countries
- Multiple world and Australian premieres
